PROFESSIONAL SUMMARY

MCA graduate and Python Developer specializing in backend development using Django. Experienced in building scalable web applications, REST APIs, and database-driven systems. Strong foundation in problem-solving, debugging, and delivering efficient software solutions.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C, C++, SQL

Frameworks: Django, HTML, CSS

Concepts: REST APIs, Backend Development, Database Optimization

Tools: Git, VS Code

PROJECTS

Wellease – Healthcare Application

- Developed a full-stack healthcare platform enabling **appointment booking and user management**
 - Designed backend using **Django and REST APIs** for seamless data handling
 - Improved data retrieval efficiency by **optimizing database queries**
-

Pro Project Planner – Rental Platform

- Built a Django-based rental web application with **booking and listing system**
 - Implemented **user authentication and dynamic data handling**
 - Structured backend logic to support **scalable feature expansion**
-

Weather Application

- Developed a real-time weather app using **API integration**
 - Enabled users to fetch and display **live weather data based on location**
 - Improved UI responsiveness using **JavaScript and dynamic rendering**
-

EXPERIENCE

Junior Software Engineer Intern

Atees Industrial Training | Apr 2024 – Jun 2024

- Developed backend components using **Python and Django**
 - Integrated frontend and backend systems improving workflow efficiency
 - Optimized database queries, enhancing application performance
-

Junior Software Developer

Soften Technologies | May 2022 – Oct 2022

- Built and tested software solutions using **Java**
 - Collaborated with team members on feature implementation
 - Debugged and resolved application issues to improve stability
-

EDUCATION

MCA – Nehru College of Engineering and Research (2024)

BSc Electronics – Paramakkavu College of Arts and science (2022)
